

## MTB/A2035 Cable | MONTARBO | Technical Specifications

### DESCRIPTION

The MTB/A2035 is a Montarbo microphone cable totally made in Italy with very high technical characteristics, consisting of 2 PVC insulated conductors, with 2 X 0.35 mm<sup>2</sup> wire-gauge (0.10mm maximum section micro strand braid in red Copper OFC) and a 95% tinned corded copper braid shielding with cotton padding and TNT tape. The excellent electrical characteristics in addition to the new XLR Montarbo connectors and a state-of-the-art assembly make this cable the perfect solution in live situations where quality and reliability are essential.

### FEATURES

- High-purity oxygen-free copper (OFC)
- High flexibility
- High mechanical resistance
- Low electrical resistance
- XLR Montarbo heavy duty

### APPLICATIONS

- Cables for Live and Studio microphones connections
- Fixed installations

### MTB/A2035 - TECHNICAL SPECIFICATIONS

Conductor resistance 20° (ohm/km):	<59
Shielding resistance:	2
Temperature range (°C):	-30° to +70°
Impedance (ohm)	110
Conductor-shielding Capacity (pF/mt)	185
Conductor-conductor Capacity (pF/mt)	111

### MTB/A2035 - PHYSICAL SPECIFICATIONS

Wiregauge:	2X0.35 mm <sup>2</sup>
Conductor:	Red CU OFC
Electrical insulation:	XLPE
Core:	1.7 mm
Shielding	95% tinned copper braid with cotton padding + TNT Tape
Outer Sheath:	PVC
Diameter (mm)	6

### AVAILABLE OPTIONS

DESCRIPTION	LENGTHS MT	CODE	CODE NUMBER
XLR male – XLR female	1 mt	MTB/A2035-1	F0500024
XLR male – XLR female	5 mt	MTB/A2035-5	F0500025
XLR male – XLR female	10 mt	MTB/A2035-10	F0500000
XLR male – XLR female	20 mt	MTB/A2035-20	F0500001
Cable Reel	100 mt	MTB/A2035	F0600003
